# RMP2

Risk Management & Program Planning Tool

*THE NEXT GENERATION OF HEALTH DATA CONSOLIDATION AND PLANNING*

The ETIO Risk Management & Planning Tool offers a comprehensive and centralized platform for the development of the Annual Service Plan.

Through its four components, Master Plan, Management & Evaluation, Individual Work Plan, and Risk Register, this tool offers the flexibility to control data inputs, and generate reports that cover all aspects of successful community healthcare initiatives.

Fully  
Customizable

Saves  
Time

Saves  
Resources

The ETIO Risk Management and Planning Tool will decrease time spent on developing the Annual Service Plan by approximately 35 days. Resulting in a cost reduction of about \$84,352.60 annually.
